To Hell with Halloween!

Yes ... you read me right ... those are the very words that entitle an article in the latest issue of *the Catholic Register* ... a weekly newspaper about the Catholic faith.

The 2-page article is [an insert in this Bulletin](#).

Please read it ... it's scary ... because it's true.

Everyone needs to read this article.

It's an astonishing article written by a man who experienced the allure and power of Satan and by the grace of God was able to break free from it and return to his Catholic life.

He begins by saying it's no coincidence that he started down the road to hell at Halloween ... that strange holiday that many Americans naively celebrated last night.

In Fultondale and all around Birmingham people paid to enter into “haunted” houses ... and to watch horror movies ... and people decorated their houses with images of skulls and skeletons and witches and ghosts and goblins ... clueless to the fact that they were inviting evil right into their homes.

I have people coming to the Church weekly seeking relief from obsession, oppression or possession by the devil!
He is real and he will come when you invite him in.

The devil is an enemy of God and he's your enemy too. He is the one behind the abortion and suicide that is rampant in our world today. Satanists call those things “anti-sacrament” and “auto-sacrifice” that give honor to Satan.

The antidote to all this evil is of course God... who is all good. While there are many Catholics who don't really grasp that Jesus, the Son of God, is truly present in Holy Communion Satanists believe this and they'd give their right arm to get a hold of a consecrated Host to take home and desecrate it.

A former witch of the Wicca cult said that if there was just one consecrated host amidst 2000 un-consecrated hosts on a table ... she'd be able to point to the consecrated one!

Jesus is truly present in the Eucharist and today we celebrate the Saints ... those countless men and women who kept their union with Him on earth and now reign with Him in Heaven.

Let's do the same ... and *To Hell with Halloween!*
Love, Father Deering

Right to Life Abortion is not as safe as the pro-abortion forces would like for you to believe. There are well documented studies which indicate that abortion causes infection, hemorrhage, cervical tears, perforation of the uterus and other organs, sterility, breast cancer and death; this is just the mother's risk. Death always occurs to the baby.
